
Q&A

What should I do if I can't pay my bill on time? The first thing you should do is call the cooperative. We will work with you to find a solution. By communicating with the cooperative, you can avoid additional charges, such as trip charges.

If I can't pay, will the service be shut off? If your payment is not received by the first of the month, the cooperative will make several attempts to contact you. Your service will only be shut off if acceptable arrangements aren't made.

Can someone else pay my bill? Yes. Before the cooperative can release confidential information, such as the amount due, to anyone else, you must first approve them in writing.

What if we need electricity to power medical equipment? Contact your doctor and ask them to contact the utility in writing, stating that shutting off your utility service would pose a special health danger. Once received, your electric service will not be shut off for 30 days to allow you time to arrange payment of your utility or find other arrangements. (Portable medical equipment, like nebulizers, are not eligible.)

**Special note: if you require electricity to power medical equipment, the cooperative strongly urges you to look into a back up power source in the event of power outages.*

What if I believe my bill is not correct?

Call the cooperative to notify us that you dispute the bill. You must pay the part of the bill you think is correct. The cooperative will not shut off your service for 45 days from the date the bill was mailed while disputed amount is worked out. You may ask the Iowa Utilities Board for assistance in resolving the dispute.

Additional Help

- Avoid wasteful spending. The cooperative can help you manage your energy use which will keep future bills under control.
- Even out the monthly highs and lows. Sign up for Budget Billing to pay the same amount each month.
- Never forget a bill again. Sign up for Automatic Payments and your bill will be automatically deducted from your checking account or charged to your credit card.

Change Your Due Date

All electric bills are due on the first of the month. To switch your due date to the 5th or 10th of each month, please submit a request in writing to the Cooperative. Once approved, late fees will not be charged until after the new due date.

Payment Arrangements

If you need a few extra days to pay your bill, call the cooperative. By letting the cooperative know when you intend to pay, you can avoid unnecessary trip charges for collection notices.

Payment Agreements

When you know that you won't be able to pay your bill on time, and you need more than a couple extra days to pay, call the cooperative. The cooperative can offer you a payment agreement to spread payments evenly for at least a 12 month period. Each month, on the due date, the portion of your past due balance will be due at the same time as your current bill.

Please note: if you fail to make payments as promised in the payment agreement, the utility may shut off your electric service on one day's notice.
